

Payroll Cards

A payroll card, or paycard, is a prepaid debit card employers use to pay employees. Payroll cards receive their funds electronically and are used as an alternative to direct deposit or printed checks, or to pay employees without bank accounts. Payroll cards can be more cost effective, convenient and safer than issuing paper checks.

Payroll card benefits include:

- **Seamless Integration** with your current payroll systems.
- **Instant Issuance** – Employers receive Instant Issue Packs that allow the flexibility to enroll employees through our web-based portal or via a secure file transmission.
- **Convenience** – Your employees can use their payroll cards anywhere Visa® debit or Debit Mastercard® cards are accepted, as well as at ATMs¹ across the country.
- **Easy Account Funding** – Access the online Corporate Portal, allowing you to easily schedule and execute payroll through your existing ACH direct deposit process or electronically through our SkyPosit tool.
- **Dedicated Support** – Proven program implementation, support, training and marketing
- **Money Management** – Cardholders have dedicated access to account information via text or email alerts², automated phone system, online and mobile app banking.
- **FDIC Insurance** – Funds are FDIC-insured by FDIC member issuing banks.³
