

## My Money Hub (Personal Finance Management)

It's common to have more than one account at more than one financial institution, but having multiple accounts can make it more difficult to manage your money.

With the My Money Hub personal finance management tool, however, you can bring all of your financial information together in Bank of Utah's Online Banking platform and Mobile App for easy viewing and easy management!

[Log In To Online Banking](#)[Contact Us](#)

### With My Money Hub, You Can:

#### Connect Accounts

Your Bank of Utah accounts are automatically added for you. You can then add any external account from the finance center database, including checking, savings, loans and retirement accounts.

#### Interact with Your Finances

You can view your money easily, but you can also manage it by creating goals and budgets, tracking expenses, prioritizing debt payoffs, and watching your net worth — all in a highly visual, meaningful way.

#### Stay Secure

Because it's integrated into our Online Banking platform and our Mobile App, My Money Hub is safe to use, protected by the same strong technology Bank of Utah uses to keep your bank account secure.

## My Money Hub Includes:

- A **Budget Tool** that uses colors and different-sized circles, or "bubbles", to visually represent your budget categories. For example, a red bubble means you're over budget in a specific category, green means under budget and yellow means near budget. The size of the bubble indicates the amount or value of that set budget.
- A **Spending Tool** that gives you insight on where, when and how you spend your money, so you can better understand your spending habits and stay on track budget-wise.
- A **Trends Tool** that gives you options to see how you're doing in a 3-month, 6-month, 9-month or 1-year view, making it very easy to see when you spend more or less.
- The **Debts Tool** allows you to see all of your debts in one place and create a payoff plan.
- The **Net Worth Tool** tracks the sum of all your assets and liabilities, and motivate you to set goals or get back on the right financial track.

## Video Tutorials

Watch the videos below to learn how to use My Money Hub to its full capabilities.\*

*\*These videos were created by Bank of Utah partner, MX, to demonstrate the financial tools offered within Online Banking and the Mobile App. While the dashboards and icons in the videos look slightly different, the functionality of the tools are identical.*
